A Clergyman in Distress—An Appeal.

An unfortunate clergyman, of German nativity, makes the following statement of his troubles and appeal for help:

A faithful minister of the Reformed Church, who, for several years, has been laboring in the different States, and lately in Allegheny county, has been most recklessly dealt with by a storekeeper of this city, who, during the absence of the reverend gentlemen, and whilst the same was engaged in removing from the country into town for the rough season, caused the seizure and sale of the minister's furniture and goods, protected by the three hundred dollars exemption law, and shamefully even seized and sold for a trifle his wife's (who is still under the depression of a deep sorrow from the loss of a dear, beloved child,) household things, bedding, trunks, and clothing—against a note of a small amount, for which the poor minister only asked a little forbearance. Consequently the minister and his family are stripped at this present cold season of all their bedding, furniture, and of almost every necessity of life, except those they wear about themselves. May this hearty appeal reach, therefore, the heart of the benevolent in this, our community. Christians, the blessed time of God's mercy is near at hand, and those who have mercy will earn mercy. Any pecuniary aid or donations of bedding, blankets, woman's clothing, or linen, will be thankfull received at the *Commercial* office, directed—"Donation for the family of the bereaved minister, Pittsburgh, Pa." A law suit against the above mentioned storekeeper has been instituted for the three hundred dollars indemnity. The amount thus received will be handed over to the Pittsburgh Orphan Asylum.

From Arkansas—The Constitutional Amendment.

MEMPHIS, December 12.—A special to the *Avalanche* from Little Rock, says: The report of the Senate Committee on the Constitutional Amendment gives the following reasons for its objections: Arkansas does not know the Amendment was adopted by such a Congress as the Constitution provides, as one-third of the States were unrepresented; secondly, never submitted to the President for sanction, as the Constitution requires; third, enormous power sought by Congress, which would virtually abolish all local domestic State laws; fourth, its effort to force negro suffrage on States, as shown in the second section; fifth, the third section disfranches the wisest and best citizens of the State, who, having performed all the conditions of surrender and general amnesty, are entitled to restoration as before the war, and seeing no reasons for believing its adoption would secure restoration, and recommending a quiet, dignified course of endurance rather than purchase restoration at the sacrifice of principle and self-respect.

On the 29th a French Regiment left for home, evacuating Castle San Angelo. The Pontificial flag was hoisted over the Castle.

The man who gave information about Surratt, is a French Canadian named St. Marie. He betrayed Surratt through jealousy, and says Surratt told him that the Lincoln assassination was a preconcerted plot. Surratt carried direct from Davis' Cabinet at Richmond, the principal details of the plot to Washington, and the assassination was not only in accordance with the desire of Davis' Cabinet, but was done by their direction and orders.

The Bolivar is the vessel which went to La Guayra in charge of English officers and crew for delivery to the President of the Masqueras government. The crew there insited on being retained in the ship, which was refused. They thereupon left the port with her and returned to England. MILITARY CHANGES IN TEXAS.

Garrisons in the South.

CIVIL AUTHORITIES COMPLIMENTED.

NEW ORLEANS, Dec. 12.—A Mazatlan paper has an account of the evacuation of that city by the French and the entry of General Corona. Some Liberals attempted to seize the American steamer Continental, but were prevented.

NEW ORLEANS, December 12.—Official reports from Florida indicate considerable ill feeling between the citizens there, arising from the possession of confiscated property by parties who purchased real estate at Confederate confiscation sales, refusing to relinquish their claims to refugee owners. The courts in some counties sustained the holders of property, but issued writs of ejection against persons holding property confiscated and sold by the United States Government. Gen. Foster, commanding the troops of the State thinks that the troops cannot be safely removed.

GALVESTON, December 12.—Lieutenant Colonel Ellis has been relieved by General Griffin of the temporary charge of the Bureau during the absence of General Kiddoo. Doubleday acts as Assistant Commissioner for Texas. In consequence of dispatches from Sheridan, Griffin leaves for the Rio Grande by the dispatch boat this morning.

NEW ORLEANS, Dec. 12.—Barracks are going up at Grenada, Mississippi, for a permanent garrison for the United States troops. It is said that Jackson, Vicksburg and Natchez are also to be made permanent posts. The Major General Commanding says this is simply to assist the civil authorities in maintaining the law.

Major General Wool has been complimentarily addressed by the Grand Jury of Marion county, Mississippi, for his impartiality and justice in the execution of his duties, to which he replies: "It is the desire of the army that the civil authorities should be altogether entrusted with the execution of the laws."

FROM NASHVILLE.

The Shoool Fund Bonds—Adjournment of the Legislature—Brownlow vs. Sneed—A Suit for Damages.

NASHVILLE, December 12.—A dispatch was received this morning from the special Legislative Committee, sent to Memphis to recover the school fund bond loaned to the Tennessee Bank, stating that they had arrived, and that things looked favorable. Nothing further has transpired.

The Legislature adjourns on Monday for the holidays, and in the meantime the committee appointed to investigate the matter will proceed with their labors.

Some of the State authorities believe that the bank, although unable now to return the bonds, will make such an arrangement as will indemnify the State against loss ultimately.

During the recent term of the Supreme Court of Tennessee, at Knoxville, the case of Governor W. G. Brownlow against W. H. Sneed, for damages, involving some twenty-five thousand dollars, was continued.

A similar case, that of Foster against H. L. Cox, for thirty thousand dollars damages, was heard, and the decision of the Circuit Court reversed, and the property of the defendant, which had been seized, was ordered to be restored. Cox had been indicted in the first Court for treason, but the indictment was dismissed.

THE FENIAN PRISONERS.

Rogers Discharged—Fresh Indictments Prepared—Case of McGowan, a Bootblack.

SWEETSBURG, Dec. 12.—The prisoner Rogers was discharged from custody to-day. Counsel Devlin furnished him money to carry him home. His statement is that being drunk he deserted from the American army and crossed with the Fenians, and only came to his senses after he was arrested.

Fresh indictments having been prepared against Reardon, Smith Morrill, Howard and Crawford, they will be laid before the Grand Jury to-morrow.

The case of McGowan is still under consideration. He is a little fellow and claims to be a boot black, and went with the Fenians to carry on his trade. He is said to have had the implements of his trade with him when arrested.

The special committee to inquire into the New Orleans riots, held a meeting to-day, and took the testimony of Messrs. Fish and Durant. The latter was President of the State Convention of Louisiana, of 1864, and his evidence was chiefly a repetition of that given by him to the Military Commission at New Orleans, to inquire into the facts of the riot. The Congressional Special Committee is expected to start on their mission to New Orleans, on Monday next.

The following is an order issued from the War department:

WAR DEPARTMENT, ADJT. GEN'S OFFICE,
WASHINGTON, D. C., Dec. 10, 1866.

General Order No. 95.—Paragraph 855, revised regulations of the army, is hereby modified to read as follows: 855. The legal punishment for soldiers by sentence of court martial, according to the jurisdiction of the Court, are death, imprisonment, imprisonment on bread and water diet, solitary confinement, hard labor, forfeitures of pay and allowances, discharge from service, reprimands and, when non-commissioned officers, reduction to the ranks. The periods of confinement in aggravated or repeated cases of desertion shall not exceed one year solitary confinement, or confinement on bread water shall not exceed fourteen days at a time, with intervals between the periods of such confinement not less than such periods, and not exceeding eighty-four days in any one year. Enlisted men for purely military offences shall not be confined in a State prison or penitentiary, and when soldiers, for other than military offences, are sentenced to confinement in a penitentiary, they will be dishonorably discharged from the service in the order promulgating the proceedings of Court. The ball and chain shall not be used as a punishment. Ordnance sergeants and hospital stewards, though liable to discharge, shall not be reduced. Nor are they to be tried by regimental or garrison court martial unless by special permission of the department commandant.

By order of the Secretary of War.

E. D. TOWNSEND, A. A. G.

The following important nominations were sent into the Senate to-day for confirmation: John A. Dix, of New York, Minister Plenipotentiary to France; A. S. Williams, of Michigan, Minister Resident at San Salvador; John Seys, of Ohio, Minister Resident at Liberia; H. S. Peck, of Ohio, Minister Resident at Hayti; John McGinnis, jr., of Illinois, Minister Resident at Stockholm; A. G. Lawrence, of Rhode Island, Minister Resident at Costa Rica; Wyckham Hoffman, of Louisiana, Assistant Secretary of Legation at Paris; H. Ewing, of Kansas, Minister Resident at the Hague; J. H. Campbell, of Pennsylvania, Minister Resident at Bogota.

Commander G. H. Cooper, of the United States ship Winooski, reports to the Secretary of the Navy, from Key West, the sailing of the Winooski from that place for the coast of Cuba, and that the health of the officers and crew was much improved.

The statement that the Secretary of the Treasury had under consideration the subject of dispensing with the services of female clerks has produced a strong pressure against such action, or at any rate that he should not dispense at once with the service of this class of employees. It is thought he may be induced to reconsider the matter as far as faithful and competent ladies may be found among those at present employed, but application for additional appointments have a very slight chance of success.

The reported settlement, by Consul Morse, of London, made with Francis Trenholm & Co., the notorious blockade runners, and the agents of the rebel Government, during the war, was made without the knowledge or consent of Minister Adams or Consul Dudley, of Liverpool, and is not satisfactory to the Government. It has, therefore, been repudiated.

Of gold, the Treasury held to-day $96,716,000, of which $21,441,000 is in gold certificates, the balance belonging absolutely to the Government. The coin receipts have largely diminished during the last month.

The White House, although not as exclusively attractive as before the session of Congress commenced, still attracts many visitors. The usual number presented themselves to-day, and, in addition to official interviews with members of the Cabinet, the President found time to receive many of those seeking an audience.

The receipts from Internal Revenue to day amounted to $671,675.

The President has recognized Allan A. Burton Consul of Costa Rica for the State of Kentucky, to reside at Louisville.

FROM MEXICO.

Maximilian to Stay in Mexico.

GREAT JOY IN VERA CRUZ.

Movements of the Contending Forces.

NEW YORK, Dec. 12.—Havana dates to the 8th have been received by the steamer Eagle.

The steamer Eider had arrived with Vera Cruz dates of the 2d, and City of Mexico of the 28th.

The inhabitants of Vera Cruz made great demonstrations of joy on the 1st inst., in honor of the announcement that Maximilian had determined to stay in Mexico. The prefect had issued a proclamation stating that Carlotte is in a great spirit of abnegation, as her husband had determined to adhere to Mexico, in defence of which he proposes to shed the last drop of his blood.

The French General Douay has reached the city of Mexico from Potosi on the 23d, and continued on his march to Puebla.

General Aymard's section of French troops had reached Perote en route to the coast.

The French garrison were to leave Seacaticas on the 27th.

Juarez is reported to be at Saltillo.

The greater portion of Tehuacan is in the hands of the Liberals. Pulancingo would soon fall to the Liberals. Pepicic was threatened by Corona; and Juarez has withdrawn his offers to the foreigners in Mexico to join him.

Durango was occupied by the Liberals on the 17th. Mejia is about retiring from San Luis Potosi and retreat to Sierra. The French are being rapidly driven out of Sonora.

Puebla has been declared open to the commerce of the world so long as Vera Cruz is occupied by the French.

IMPORTANT BILL REPORTED.

THE OREGON SENATORSHIP.

Official from the Rio Grande.

WASHINGTON, Dec. 12.—The bill reported by the Committee on Judiciary of the House, repealing the act of 1790, which limits prosecutions for treason to three years, has created a profound sensation, and the finest legal talent of that body has been promptly arrayed against the proposition as a monstrous one. Many leading Republicans, including Mr. Stevens, will resist the proposition to the last, as an *ex post facto* law.

Mr. Stewart yesterday received a telegram from San Francisco, stating that Senator Nye, of Nevada, received a majority in the Legislature, and will undoubtedly be re-elected.

Gen. Bloomfield, of New Orleans, is here. His business is connected with the rebuilding of the railroads in Louisiana. There is little doubt but that he will be successful.

Official advices are received at Gen. Grant's headquarters, from Gen. Sheridan. There is nothing of importance in reference to affairs on the Rio Grande.

THIRTY-NINTH CONGRESS,

(SECOND SESSION.)

WASHINGTON, Dec. 12, 1866.

SENATE.

Mr. Morgan introduced a Joint Resolution, presenting the thanks of Congress to Mr. Field, for the successful laying of the Atlantic Cable.

The District of Columbia suffrage bill was taken up.

Mr. Brown of Missouri, maintained that suffrage should be universal without restrictions as to race. The question was on Cowan's amendment to extend franchise to females.

Mr. Doolittle said he would vote against the amendment. He had arrived at the conclusion that the true foundation upon which to rest suffrage was the head of the family. According to nature and religion, man was the head of the family. He was told the Indian or African was competent. He was told what he could not believe. Though some few of the latter might be, it would be a burlesque upon republican institutions to say those who had lately been slaves were competent.

The yeas and nays on the amendment of Mr. Cowan were taken with the following result: Yeas, 9; nays, 37.

Mr. Dixon offered the following amendment to come at the end of the first section of the bill reported by Mr. Cowan: "Provided that no person who has heretofore voted in this District shall be permitted to vote unless he shall be able at the time of offering the vote, to read and to write his own name."

Mr. Saulsbury spoke against the bill.

Mr. Trumbull introduced a resolution requesting the President to inform the Senate whether any persons had been appointed to office since the last adjournment of the Senate to fill vacancies existing prior to that adjournment, particularly if such is not the case. In regard to the Surveyor of Philadelphia.

HOUSE.

Mr. Blaine introduced a resolution authorizing the Committee on the War Debt of the loyal States to report a bill authorizing the taxation of two and a half per cent on National banks for the payment of such debts.

Objection being made, it lies over.

The resolution of Mr. Price relative to the issue and circulation of National banks was laid over.

A resolution declaring that no State of the South refusing to adopt the Constitutional amendment shall be entitled to representation which was laid over.

The credentials of B. H. Epperson, of Texas, was presented and referred to the Election Committee.

The bill repealing the law of 1790, which provides for no trial for treason after the expiration of three years, was taken up, debated and recommitted to the Judiciary Committee.

The bill authorizing the President to confer brevet rank on officers appointed to the regular army for gallant services in the volunteer service was passed.

The bill of last session regulating the peace establishment of the army, was reported and tabled.

The bill regulating appointments was debated at great length.

Mr. Blaine, from the Committee on Military Affairs, reported and recommended the passage of a bill relating to brevets in the army of the United States, and stated its object to be to place volunteer officers appointed to positions in the army upon the same footing with regular officers. The bill passed.

Mr. Schenck, from the Committee on Military Affairs, reported the army bill of last session to increase and fix the military peace establishment of the army of the United States. Laid on the table.

Also, a resolution to extend three months extra pay of certain officers. Laid on the table.

Mr. Schenck also reported adversely upon the memorial of A. Gleason and five others on the same subject.

Mr. Thayer, from the Committee on Private Land Claims, reported an act confirming the title of Alex. Gardapier to a certain tract of land in the State of Wisconsin. Passed.

The House resumed the consideration of the bill to regulate appointments to and removals from office.

The pending amendment offered by Mr. Williams was agreed to.

Various other amendments were offered, giving rise to much discussion, which was participated in by Messrs. Williams, Schenck, Thayar, Kasson, Bingham, Willson, (of Iowa,) and Shallabarger.

An amendment offered by Mr. Williams providing that the heads of departments should hold their office during the term of office of the President by whom they were appointed, unless removed by the consent of Senate, and should severally appoint their assistants, and all their subordinate officers, was further amended at the suggestion of Mr. Hale, by striking out the latter clause providing for the appointment of subordinates, and the amendment so modified was agreed to.

An amendment offered by Mr. Garfield, providing for the punishment of any officer who shall receive or pay any money out of the Treasury of the United States, in violation of the provisions of the bill, was altered, at the suggestion of Mr. Hale, to make the punishment apply to the payment or receipt of money in violation of the provisions of this or any other statute of the United States, and so altered, was agreed to, finally.

On motion of Mr. Farnesworth the further consideration of the bill and amendments was postponed until Thursday.

Mr. Hooker, by unanimous consent, reported bill to provide national currency secured by pledge of United States bonds, and to provide for the circulation and redemption thereof and for other purposes.

On motion of Mr. Niblock a resolution was adopted calling upon the President for all correspondence, reports and information in his possession in relation to the riot alleged to have occurred at New Orleans on the 30th of July.

The suffrage bill was discussed at some length.

In the course of his remarks, Mr. Rogers said: The question before the country was not as to who should, or should not, vote. The question was between constitutional liberalism and despotism.

Mr. Kelly, of Pennsylvania, understood the gentleman to say that that government was a despotism which denied representation to its citizens, and he wanted to ask him whether that was a free government or a despotism which denied to its people not only representation, but citizenship, and yet taxed them!

Mr. Rogers answered that if Mr. Kelly's theory of despotism was correct, then our fathers who framed the constitution were themselves despots.

Mr. Kelly remarked that he had not asked about the opinion or merits of our fathers, but the opinion of the present leader of the Democratic party in the House—the gentleman from New Jersey, and he would again ask him if he was in favor of denying both the right of representation and the right of citizenship to four millions of American people and their posterity, and if he would declaim against that as despotism which asked that every man should be a citizen, and that no citizen who was not allowed a free voice in electing his representatives and be taxed directly or indirectly!

Mr. Rogers, in reply, said he was simply opposed to inflicting upon the people of the South or people of the North any rule of suffrage by virtue of an amendment to the Constitution. He wanted each State to settle the question for itself. He held that the States were sovereign, and that each one had a constitutional right to control its own domestic policy. He was as much in favor of liberty as any one could be, but he would state in that connection that he was opposed to negro suffrage in every form.

Mr. Thayer, of Pennsylvania, inquired whether the gentleman had not voted against the Constitutional amendment abolishing slavery.

Mr. Rogers answered that he had, upon the ground that the States had exclusive control over the institution of slavery and he still considered that Constitutional amendment utterly null and void. The slaves were free, and so help him God, he would do all in his power to maintain their freedom, (laughter,) but they had been made free, not by the amendment but by the war power. He stood by the President of the United States, who would go down to posterity as one of the brightest jewels that had ever been given to the country. (Laughter.) The President might be scoffed at by traitors to the constitution of their country, but Almighty God would have it written in letters of gold upon the altars of Christianity (renewed laughter)—that at least one pure man was left in the land, who at all hazards would stand by the constitution of his country. (Continued laughter).

Mr. Rogers protested against being interrupted. He was not surprised that the gentleman scoffed at the downfall of liberty. It was to be expected that they would do so, but he for one, would not be put down in that way. He had a right to express his opinions. He had always expressed them freely, and he would continue to do so for the short time he had to remain in the House, (laughter,) unless the majority should get rid of him, as they got rid of several other members by expulsion. He felt it to be his duty to warn the people against the encroachments of Congress.

Lutheran Convention.

PHILADELPHIA, December 12.—The special convention of the delegates from fifteen orthodox Lutheran Synods in the United States and Canada, met this evening in the Trinity Lutheran Church. Over one hundred delegates were present, among whom are a number of the most prominent clergy of this denomination. The object of the convention is the consideration of the propositions for a basis of union between the various orthodox Lutheran Synods in this country, and its proceedings are looked to with considerable interest by that denomination.

There is a large attendance both of clergy and laity, and the greatest unanimity has thus far prevailed. An organization was effected this morning by the appointment of Rev. G. Brassler, of Zelienople, Pa., H. F. Roth, of Pittsburgh, and Rev. Stressguth, of Milwaukee, as Secretaries.

In his charge to the grand jury of the Court of Sessions, Recorder Hackett alluded particularly to the manifest increase of crime in the commercial circles and the unsafe condition of the public buildings.

The Directors of the Havre Steamship Company have decided to sell the steamships Arago and Fulton at auction, on the 23d inst., it having been found necessary to discontinue the line for want of patronage.

Stephens' headquarters exhibits an animated spectacle. Men are busy packing ammunition, and arms are arriving from Pennsylvania and Delaware, collected by Col. Condon. Donations are made to the amount of a million of rounds of fixed ammunition with arms.

Texas sends thirty-four thousand stand of arms and four thousand dollars in currency.

The report of the arrival of Stephens in Ireland is looked for with anxiety. No question exists but that he has left the country. The public expect important news from Ireland within three weeks.

The Executive Committee of the National Board of Fire Underwriters, at a meeting this morning, referred the following subjects to appropriate committees: Granting indiscriminately the privilege of unlimited insurance; writing general policies on the contents of dwellings; payment of claims before maturity and before the cause of fire is satisfactorily ascertained; allowing the use of gas generated from extracts of coal oil; to secure municipal action generally to prevent the storage of coal oil and extracts where other property is exposed; to secure the organization of local boards and advance the rates to a remunerating standard throughout the country; and the adoption of the most efficient measures to detect and punish incendiaries.

The steamers Hecla and Bavaria arrived from Europe to-day.

A case is on trial in the Supreme Court, that of John W. Taylor, a St. Louis banker, and agent for Morris, Ketchum & Co., for the recovery of fifty thousand dollars, for alleged damages upon certain stock and gold transactions in 1864.

Mrs. Caroline Rexford has recovered seven thousand five hundred dollars damages in the Supreme Court against the Seventh avenue Railroad Company for injuries sustained while getting on one of their cars.

Mr. Miller, a postoffice clerk, has been held for trial on the charge of purloining money letters.

The tenth annual Convention of the National Association of Base Ball Players convened at Clinton Hall at 4 P. M., and was called to order by President John Wildey, of the Mutual Club of this city. About three hundred and fifty delegates are in attendance, representing clubs in various States, from Maine to Oregon. Delegations from the Northwestern Association were invited to seats on the platform.

The afternoon session was mainly occupied in balloting on the application of clubs for membership in the association, of which there were 157.

The report of the Judiciary Committee was read by the chairman, Mr. F. Pigeon, of the Eckford Club.

Complaints against various clubs, were laid on the table, owing to informality in their presentment.

The Convention then adjourned till half past seven o'clock, at which time it was again called to order by the President.

The report of the Committee on Rules and Regulations was read by the Chairman, J. B. Jones, of the Excelsior Club of New York.

The reading of the various amendments and alterations created a vast amount of excitement. Among other amendments adopted by the Convention was one which makes the employment of hired players in a match game sufficient ground for the expulsion of the club so offending from the association.

Another provides for representation of the State Ball Associations in the National Association; another does away with the round arm style of pitching. Clubs accepting a challenge must play the match the same season, and the defaulting club must send a ball to its opponent. The length of time required for membership in a club previous to playing a match remains the same as heretofore. At the time our report closes the Convention is going into ballot for officers for the ensuing year.

The Constitutional Amendment.

RICHMOND, Va., Dec. 12.—It is stated that only four members of the Legislature can be relied on to vote for the Constitutional amendment.

CITY AND SUBURBAN.

(ADDITIONAL LOCAL NEWS ON THIRD PAGE.)

Christmas Presents—What to Buy and from Whom to Purchase.

The reader need not again be reminded of the near approach of the gift season, for everybody feels new life course through his veins, in anticipation of the holidays, and the usual attending joys and pleasures. Our merchants are keenly alive to the great demand which will be made upon them by the purchasing community, seeking appropriate gifts to bestow upon dear friends and relatives. There are numberless bazars or headquarters for obtaining desirable and suitable articles of use, beauty and adornment, which will prove most acceptable as presents, and prominent among them, we might mention the well-known and popular notion and trimming house of Macrum & Carlisle, No. 19 Fifth street. Few of our city readers are unacquainted with this establishment, the admirable system upon which its business is conducted, the richness and variety of the usually large stock, and the advantages to be obtained in dealing there. The goods embracing evey imaginable article usually kept in similar first-class houses of this line of trade, have been selected with the best judgment and care, and are disposed of at the most inducing and liberal prices. We were yesterday shown through the salesrooms, and found all of the numerous departments fully stocked with choice articles, suitable for the holiday trade. Should we devote our entire space to citing all the articles which met our view but cite the following articles, which, in our judgement, would prove just the things for Christmus and New Year's presents: Real and Imitation Lace Goods, Plain and Embroidered Handkerchiefs, Ladies' Cashmere Scarfs, Fine Cloth and Kid Gloves, Croquet and Skating Hose, Under Shirts and Drawers, Ear Muffs, Rich Jewel and Work Boxes, Watch, Handkerchief and Glove Boxes, Elegant Perfumery Stands, Cigar Stands and Dressing Cases, Fine Furs, Belt Clasps, Albums, Dogwood and Jet Jewelry, Fine Morocco Wallets and Bags. In addition to these there will be found an elegant assortment of paper collars, linen shirts and fancy goods for ladies' and gentlemen's wear. Country and city retail dealers can buy no where else to better advantage, as recently the entire stock was marked down to the lowest possible margin. Gentlemanly clerks and lady assistants will be found constantly in attendance to wait upon patrons, and we cheerfully commend the house of Macrum & Carlisle to all holiday purchasers.

Alleged Rape.

Officers Moon and Wrigley last evening arrested a young man named Samuel Lloyd on a charge of rape, preferred by Margaret Bell. The accused is a youth of about nineteen, and has boarded with his brother-in-law, Mr. Camp, in Temperanceville. The girl is, as she says, between thirteen and fourteen years of age, and was employed as a servant girl in the family of Mr. Camp. Two weeks ago last Friday evening Mr. Camp and his wife were absent from home, attending a ball in Temperance Hall, Temperanceville, and Lloyd and the girl Bell were the only parties left at home. It was at this time that the alleged outrage was committed. The defendant denies that any force was used on his part, and alleges that the information would not have been made had it not been that Mrs. Camp had given Margaret notice to quit her service. Lloyd is locked up, awaiting a hearing this morning at nine o'clock.

A Frank Case.—Navina Frank came to the office of Alderman Strain, yesterday, and lodged an information against Peter Bresco, charging him with having wantonly and without cause pulled the sunny locks of the said Navina. Peter was arrested and frankly acknowledged his guilt, but in order to have the matter properly vindicated through the recognized legal channels, he entered bail for a hearing to be had in the case to-morrow.

Visitors Maltreated—An Overcoat Lost.

An individual named B. Schoff appeared before Alderman Lynch yesterday, and made oath charging L. Seymour and his wife with trover and conversion. The case as stated by Schoff is as follows: He and Mrs. Schoff went to take tea with the Seymours on Sunday evening, at their earnest solicitation. After partaking of a bounteous repast the Schoffs and Seymours went out for a stroll in company with each other. On returning to the home of the latter, situate on the corner of Ross and Second streets, Mr. and Mrs. Seymour proceeded up stairs to divest themselves of their out-door wrappings. After a time Schoff heard a terrible noise up stairs as if a melee was in progress when he rushed to the second floor, where he beheld Seymour in the clutches of his better half, who was industriously pounding him in the face, the symmetry of which was lost in a horrid bath of blood. Fearing that the feminine would murder the masculine head of the house of Seymour, Schoff interfered in his behalf, interposing his burly frame between the luckless husband and his infuriated wife. Instead of effecting a cessation of hostilities, it only increased the wrath and reinvigorated the arm of the virigo, who turned upon poor Schoff and dealt him a couple of blows on the nasal organ, that had the effect of making him seek the lower floor where he communicated the intelligence of his reception to his wife. The latter grasped what she supposed to be stant after were hastening to their home, on arriving at which, they discovered that they her husband's overcoat and the scarf and the train in an instant after were hastening to their home, on arriving at which, they discovered that they had taken the wrong coat.

The next morning they returned the garment and demanded their property, but while Mrs. Seymour took the coat that had been carried off in mistake, she refused to give to Mr. Schoff his own wrapping. After exhausting entreaty, all to no effect, Mr. Schoff appeared before the magistrate, and instituted proceedings as stated. A warrant has been issued for the arrest of the Seymours.

The Holidays.

It is a generally conceded fact that no household is perfectly furnished that has not in its parlors a piano. It is just as essential to the comfort and pleasure of the refined as is the sun's warmth to the flowers or the stars to the beauty of night. Less than half a century ago the piano was introduced on the stage at the Convent Garden Theatre as a "new instrument," yet from the perfection of its mechanism and its power to give tone and voice to harmonious sounds, it has grown in popular favor to such an extent as to almost supercede all other instruments in producing music for the home circle.

Of all the pianos at present in the market none have surpassed—and in the estimation of many musical critics, none have equalled those manufactured by Chickering & Sons. For depth and flexibility of tone, and a capacity for following every waver and quiver of the voice without losing any of its rich melody—filling a vast concert completely, but yielding no harsh grating vibrations, being in fact the very embodiment of harmonious utterance and beauty of sound, it stands without a rival. Aside for its merits as a musical instrument, its great massive shining surface like polished ebony and white pearl-like keys are ornamental in the highest degree, and should therefore be regarded as a piece of parlor adornment.

C. C. Mellor & Co., No. 81 Wood street, are the sole agents for the sale of those instruments in Western Pennsylvania, and those wishing to purchase or examine those musical wonders should give them a call. They are also the agents for the cheap Emerson pianos which they warrant for five years. Before selecting your holiday presents you should not fail to visit Mellor's. Remember the place, 81 Wood street.

The Plymouth Fair.

The second day of the fair and festival of the Plymouth Church, at City Hall, was even more successful than the first. At an early hour, the people began to flock to the Hall, and the attractive room was well filled during the entire day. At evening, however, the throng was, of course, greater, and even exceeded that of Tuesday evening.

To attempt to specify the manifold attractions of the Hall would be to fail. They are too many. We may safely, however, after the many beautiful and agreeable ladies who are in attendance in all direction, rank the admirable dinners afforded to hungry visitors as among the chief attractions. The New England Kitchen, too, is a grand centre of attraction, and there is no end to the interest excited in those who get a peep of its inner mysteries. To-day, Mrs. Jemima Whittaker, one of the leading spirits of the olden time, who grace the "Kitchen," will furnish forth to her visitors a genuine old fashioned New England dinner, prepared by her own hands. A prominent feature of this meal will be a dish of the world famous Connecticut Chowder.

During the evening of yesterday it was almost impossible to find room for the crowd present, and every one you looked at seemed happier than the rest. We sincerely hope the exhibition may continue to be as perfectly successful as it has been so far.

Suitable Presents.

The attention of our readers is directed to the advertisement of Messrs. Kay & Company, the well known and extensive book and stationary dealers, No. 55 Wood street. Commendation of such a firm which has long occupied a prominent position in that line of business in our city, will prove unnecessary, but we would direct attention to their large stock of choice publications purchased exclusively to supply the holiday trade. It has never been disputed that a book is the most suitable and appropriate gift for old or young. It is a mental coin which passes current in all circles of society, and as a gift is always deeply appreciated. There will be found at Kay & Co's a most complete catalogue of books for sale of all the distinguished and standard authors, embracing elegant presentation volumes, and richly bound books for children. A full assortment of family and pocket bibles, prayer and hymn books, &c., &c., will also be found at rates the most reasonable. The firm deal largely in rosewood and mahogany writing desks, tourists cases and portfolios, and a great variety of fancy articles usually kept in similar first class houses. We cheerfully recommend Messrs. Kay & Co. to the patronage of those desiring to purchase suitable holiday presents.

A Sensation Spoiled.

A startling story was told on the streets yesterday, to the effect that a heavy mail robbery had been committed in the city. The mails for Allegheny and Manchester are made up at the Pittsburgh Postoffice and sent to the other offices by a messenger on a street car. Yesterday morning the messenger started, as usual, with the mail bag, which was placed on the platform of the car. On passing the Red Lion Hotel the bag was stolen off the platform, so the street story said, by some fellow who darted with his booty through the hotel and made good his escape. Report said that a very considerable amount of money was contained in the mail, and no small excitement was the result. An investigation of the matter proved that the bag had jolted off the platform and had not been seen to fall. A few minutes afterwards a boy saw the bag, picked it up and carried it into the Red Lion. The messenger, on reaching the other end of the bridge, discovered his loss, came back, redeemed his charge, and went on his way. Thus endeth the sensation.

The Gipsey Abduction Case Again.

Our readers will remember the account which we published a few weeks ago, of the three little girls who alleged that they had been stolen from their homes in Buffalo, forced to remain with a band of travelling tinkers who are now encamped at Manchester. The authorities here, yesterday received information from Harrisburg, that in 1860 a little girl named Maggie Lawler, answering in evey particular the description of the Maggie Lawler in the case that we reported was stolen from her friends at Buffalo, whither she had gone on a visit from her home near Reading. The request was made that the Maggie Lawler who is with the gang at Manchester might be secured and held until she could be seen by her supposed friends. The matter was placed in the hands of the Allegheny police and the child will probably be again at Mayor Morrison's office to-day.

Hearing Before Commissioner McCandless.—A hearing was had yesterday before United States Commissioner McCandless, in the case of J. E. Bruner and George H. Williams, *alias* Durand, whose arrest by officer Wilmot on a charge of passing counterfeit money we announced some days since. Bruner was discharged, but was held to bail in the sum of $500 to appear as witness at the trial of Williams. Williams, in default of $5,000 bail, was committed to jail to answer at court. Officer Wilmot deserves the greatest credit for the efficient manner in which he brought the case to a successful issue.

Now is the Time for the ladies to prepare their presents for Christmas, in slippers, tidies, pincushions, &c.

Also, a model for cutting ladies' and children's dresses, at the celebrated Weed Sewing Machine Office, No. 112 Grant street. See advertisement in another column. TTS

A Nuisance.—The prisoners of the county jail complain that their slumbers are disturbed by the ringing of the fire alarm bell in the Court yard. It makes no particular difference since they are the only parties who can complain on that score.

Allegheny Councils.—The courteous and obliging clerk of the Select Council, Allegheny, D. Macferron, Esq., notifies us that a stated meeting of that body will be held to-night.

A Daniel Come to Judgment.

Daniel Smithson is a young man, but nevertheless a fitting illustration of the truth of the old adage that "man is prone to err." On last Monday evening Daniel, in order, as he says, to kill the leaden moments, went with a couple of boon companions to a den of iniquity on Roberts street, in the Seventh ward. Desirous of parading his wealth before the eyes of the habitues, he took his wallet out and opened it wide enough to allow a youth named Johnny Walls to take therefrom a piece of currency of the denomination of fifty cents, which the said Walls failed to return to him. Becoming tired of the "ranch" on Roberts street, Smithson repaired to the domicil of Barbara Stambaugh, on Overhill street, where he remained until the fumes of the liquor he had been drinking through the night deserted his brain and left him sane again. With the return of his senses he discovered that his pocket-book, containing $40, had been stolen from him. He forthwith appeared before Alderman Strain and made oath against Barbara for the theft. At a hearing which was had in the case yesterday, it was ascertained that it was not at Miss Stambaugh's he lost his money, but at the house on Roberts street. Of course Barbara—the innocent—was then acquitted and restored to liberty once more.

Rents and Real Estate.

In various cities the price of real estate is materially decreasing, while rents are rapidly coming down to reasonable figures. The contrary state of things exists here. Instead of real estate falling in value it is daily rising, and fabulous sums are demanded for all property offered for sale. Rents will be enormous next season unless the community take a decided stand not to be imposed upon by heartless and avaricious landlords. There is no good reason why they should even remain as high for the coming year as they have been during the one now closing. A little firmness and opposition to the proposed advance in rents may succeed in accomplishing much good. If no opposition be made there is no telling where rents may stop. Few merchants can afford to pay enormous sums for their salesrooms unless they obtain dishonest profits upon their goods, and in that case, the general public are forced to contribute to the wealth of the real estate owner. We hope some of our prominent citizens will take the lead and inaugurate some movement whereby the "ring" of landlords may be defeated in their plans to extort high rents during the coming year. Rents must find their level, and why not force them down now as well as at any other time.

Barratry.—Conrad Eberhart appeared before Alderman Strain, yesterday, and made oath charging officer John Lutz with barratry. In his deposition Eberhart alleges that the accused within the last three months has made forty-two separate and distinct informations against Eberhart before various Alderman in this city for the purpose of extorting money from the deponent. Lutz was arrested and held in $1,000 bail to answer at a hearing to be had in the case to-day.

The Lecture.—P. T. Barnum, Esq., the humbug of modern times, (we do not beg his pardon) will deliver one of his brilliant and spicy lectures to-night, at the Academy of Music, under the auspices of the Young Men's Mercantile Library Association. Every body should be present. Secured seats may be obtained this morning at the Academy of Music.

Alf. Burnett favored us with a visit yesterday, looking as well and handsome as usual. He means to give two of his inimitable readings under the auspices of the Public Catholic Library Association, just before the holidays. Mr. Burnett is without a rival as an elocutionist, and we congratulate our readers upon the great treat in store for them.

Simplicity and Perfection Combined.—The most perfect, most easily operated, most simply constructed, most durable, most efficient for all kinds of sewing, and in short the *best and cheapest Machine in the world* is the Wheeler & Wilson. Call at the Agency, No. 27 Fifth street, and examine the fine assortment just received for the holidays.

Gambling.—Ephraim Balliet yesterday made information before Alderman Taylor, charging Gottfried Roth and Joseph Turkey with gaming. It was alleged that the accused played several games of cards for valuable stakes. The parties were arrested and held for a hearing to-day.

Ladies' Fair.—Commencing this afternoon, and continuing till tomorrow night, the Ladies of the Union Baptist Church will hold a fair and festival at the Church, Grant street, between Sixth and Seventh streets. A rare season of enjoyment may be anticipated.

DOMESTIC COMPETITION.

The friends of Protection to Home Industry have uniformly insisted that if impost duties, by shutting out foreign competition, increased the margin of profit in any branch of business considerably beyond the average, a domestic competition would be stimulated, and thus the margin be reduced to the ordinary proportion. Common experience concurred with the dictates of plain reason in demonstrating the correctness of this proposition. Nevertheless, free trade theorists have constantly carped and caviled at it as a brazen assumption. It so happens that the anthracite coal interest furnishes a recent and conclusive illustration of the verity of the proposition.

During the last three years of the war an extraordinary demand was created for coal—special causes conspired with the increased impost duty to shut out foreign competition. In consequence, in all the sea-board markets coal commanded fabulous prices. A good many individual owners of collieries returned to the Assessors of Internal Revenue from one hundred to five hundred thousand dollars of annual profits. The incorporated companies became suddenly opulent. Coal seemed to be the genuine philosopher's stone, that turned every thing to gold, or at least to greenbacks.

This unprecedented success turned myriads of covetous eyes to the coal business. Presently tens of thousands were resolved to share in the superabounding gains. New mines were opened. Old railroads were improved, and the rolling stock upon them augmented. Other railroads were projected, and the work upon them commenced and vigorously pushed. Some of these new roads are already in operation, and others of them soon will be.

Now, what has the effect been upon the supply of coal and the prices obtained therefor? For two or three years the increased demand kept even pace with the augmented supply, and prices were maintained, if not advanced. This year the supply has altogether outstripped the requirements of the market, and prices have fallen so low as to entail heavy losses. Up to the 8th day of the present month, 2,748,838 more tons of coal were sent to market from the anthracite districts than during the corresponding period of last year. This overstock has sent prices down at Elizabethport, near New York, to $3,50 per long ton for lump.

Anxiety to get into the coal trade has evaporated. Excessive profits have done their legitimate work. It now remains to adjust this branch of industry to the market, and then the average rate of remuneration will be obtained in it, barring the fluctuations which are incident to all sublunary pursuits.

But, it may be asked, why do not all other branches of business find as speedy adjustment as this under the principle embodied in the proposition we are considering? The reason is perfectly obvious when we bear in mind certain essential differences in business pursuits. Some require only a low degree of mental capacity and short preliminary training on the part of the most of the individuals employed in them, and do not require considerable periods either for the material wrought upon to be produced, or to convert this material into the ultimate commodity. In other departments high intelligence, long and careful experience, intricate machinery, conspire with lengthened processes for growth and manufacture, to retard competition, and delay the period when the margin of profits must necessarily come down to the average.

Not a few employments rest under the imputation of being sustained by protective imports, which are not so in reality. When a computation is made of all excise and income duties with which these employments are burdened, it is seen that these amount to nearly as much or even more than the import on the avails of corresponding foreign employment. In all these instances the import is in no proper sense protective. It is simply an expedient for making excise and income taxes sufficient for the production of revenue to the government. It does not require uncommon discernment to see that when the various internal taxes on a particular article of domestic production amount to as much as the external tax on the like article of foreign production, that the home producer is competing on equal terms with his foreign rival. And this is the condition, or very nearly the condition, in which many branches of industry are now working along. Whoever means to understand the bearings of discussions on this subject, and especially members of Congress, who mean to act for the welfare of their constituents, should make these computations for themselves. In numerous cases they will discover, notwithstanding all the clamor to the contrary, that the amount of protection, so far from being increased during the war, has been seriously diminished.

OUR UNIVERSITY.

We are glad to be informed that such is the prosperity of the Western University as to number of students, number of faculty and increase of endowment, that its friends are already contemplating plans for greatly increasing its usefulness. The experiment, even with the very limited means possessed, has afforded satisfactory proof that a good literary institution can be sustained here. That we should have such an institution of the highest order all must admit. No reason can be given why our cities should not have the advantages for education enjoyed in nearly all the prominent cities of our country and in the cities of Europe. To send to distant places our money, and then send away from their homes at the critical period of their lives our sons, is impolitic and wrong. The students and money are here. The influence of a University of the highest order on the different professions, on our manufacturers, and on the only phase of education, as well as on the morals of our youth, is incalculable. We are glad to know that our business men and men of wealth are determined that this want shall be supplied, and that we shall not be so far behind other cities in this respect, and are subscribing liberally towards its complete endowment. Already they are thinking of more extensive grounds, of more and larger edifices for preparatory, academic, medical and law departments. The plan is a noble one, and means to consummate it should at once be furnished. Let us have at our own doors every advantage for our sons. The object commends itself to all our citizens.

YOUNG MEN'S CHRISTIAN ASSOCIATION.

There are some excellent suggestions in the article with this caption, published on our third page, which we commend to the attention of our Christian readers. The suggestion of the writer, that the Christian Association of young men should be "planned and adapted to suit more generally the diversified tastes, *habits* and *education* of young men, without regard to their *religious character*," will, however, strike many, as it did us, as subversive of the main and distinctive object of the association. The words might convey the impression that a man might go in and carry with him any pernicious sentiment, or vicious practice which he may have acquired by habit or education; but the writer utterly disclaims any such thought; but that he only insists that a man ought not to be debarred from it because he may have indulged in bad habits, or may not yet be a member of any Christian Church. With this remark we submit his suggestions, only adding that such associations ought to be so managed as to afford practical evidence and illustration of what Solomon says of Wisdom—which is his term for that which distinguishes the true Christian from other men—"Her ways are ways of *pleasantness*, and all her paths are peace."

THE FORTIETH CONGRESS.

By a vote of 127 to 30, the House of Representatives passed a bill calling the Fortieth Congress together on the 4th of March. Its passage in the Senate by a vote of more than two-thirds is certain. There is a creditable feature in this bill, which is this, that the members of the present Congress who were re-elected to the next, will not be entitled to mileage by the immediate transfer from the Thirty-ninth to the Fortieth.

Had such a law as this been on the statute book on the 3d of March, 1865, the course of ANDREW JOHNSON and his "policy" could have been arrested before he did so much mischief by usurping the legislative power of the government.

AN AUTUMN SUGGESTION.—Now, as heavy fogs arise and searching winds commence to blow; now, as the human body, exhausted like inanimate nature by the heats of summer, begins to wilt and droop; now, ere the inclement winter makes its trying onset; NOW is the time for a preparatory course of the best acclimating medicine in existence,

HOSTETTER'S STOMACH BITTERS.

Fever and Ague is rampant in all parts of the country. Quinine, the physicians admit, will not quell the phase of the disease which at present pervades the entire West. It is well that it is so, for the remedy (so-called) is deadlier than the malady. But if quinine is inefficient in intermittent fevers, HOSTETTER'S BITTERS is irresistible. It would be safe to make a contract, under heavy penalties, that any given "Fever-and-Ague District" should be exempted from the disorder for any particular time, provided every inhabitant would take the BITTERS according to directions, during the term of the contract. There has never been an instance in medicine which this sterling invigorant and anti-febrile medicine has failed to ward off the complaint, when taken duly as a protection against malaria. Hundreds of physicians have abandoned all the officinal specifics and now prescribe this harmless vegetable tonic, and nothing else, as a preventive and cure for all the forms of chills and fever. Vigor is the thing most needful in these cases as well as in dyspepsia and nervous affections, and HOSTETTER'S BITTERS are the safest, surest, and most wholesome strengthening preparation that human skill has yet concocted.

AGENTS WANTED

FOR THE MOST POPULAR

AND BEST SELLING SUBSCRIPTION BOOKS PUBLISHED.

We are the most extensive publishers in the United States, (having six houses,) and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company.

Our books do not pass through the hands of General Agents, (as nearly all other subscription works do,) therefore we are enabled to give our canvassers the extra per cent. which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.

Our series embraces the most popular works on all subjects of importance, and is selling rapidly both North and South.

Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address

Young Men's Christian Association—What it Should be.

MESSRS. EDITORS GAZETTE:—I am pleased to see that the Young Men's Christian Association is about to be reorganized. Permit me to give expression to a few thoughts on this subject.

It has, I believe, been found that useful as these associations have been, their usefulness might have been greatly increased if they had been planed and adapted to suit, more generally, the diversified tastes, habits, and education of young men, without regard to their *religious character.*

My theory would be to open the association to *all* young men (and *why not all young women?*) who are willing to be governed by the rules of the association. The great object and design of the association should be not so much to call the "righteous as sinners" to participate in the advantages; and to this end the association should become "all things to all men" in order that all classes might be brought under certain *refining* as well as religious influences. But, to effect this object, the Assobiation must be made an attractive place to *all;* and, to do this, it must, to some extent, be securalized. It is very well known that thousands of young men in our cities—clerks, mechanics, &c.—who, after the labors of the day are over, are left to themselves, to seek their happiness in any way they may fancy; but it so happens that their limited wages only justify them in the selection of cheap boarding houses, and that even in such houses they cannot afford light and fire in their chambers; and as their employers are not in the habit of taking them to spend their evenings at their own pleasant homes, which they are under a moral obligation to do—these young men seek the greatest comfort for the least cost, and find genial light and heat, and it may be a stray newspaper, or at least such society as a Lager Beer Saloon furnishes, and all for five cents. It should be this class as well as the well-to-do young men which the association should attract; and yet it may be there are comparitively few of this class that make a profession of religion, but who, under proper associations, if they did not become christians, might at least be greatly improved or saved from low and vicious habits.

The rooms of the association should be convenient, neatly and comfortably furnished.

There should be a free Reading and Library room—a Lecture Room, which might be used also for daily noon prayer meetings and other religeous or sacred purposes—apartments for night schools of the highest and most diversified character. Lastly a lunch-room in which coffee and tea might always be had at the mere cost and expense.

The association should be sustained largely and liberally by the merchants, manufacturers and capitalists, and by all who are *willing* to pay an annual tax. H.

LAWRENCEVILLE Dec. 10th 1866.

Criminal Court.

In the Criminal Court, Judge Stowe presiding, the jury in the case of George E. Shaw, reported on trial yesterday, found a verdict of guilty of simple assault and battery.

The next case taken up was that of George Rutter, R. H. Wallace and William Orris, indicted for riot. The indictment contained three counts: riot, unlawful assemblage and assault in resisting the Sheriff in the discharge of his duty. The defendants are charged with having, at Tarentum, on the night of the 5th of August, created a riot at a camp meeting, by assaulting different parties. Sheriff Stewart, who was on the ground, after much effort succeeded in quelling the riot, arresting the parties, and in restoring order. The evidence was concluded, and the case went to the jury yesterday afternoon. Messrs. Swartzwelder, Kirkpatrick and Mellon, and D. Reed appeared for the defendants, and T. M. Marshall, Esq., and District Attorney Duff for the prosecution. The Jury had not returned a verdict.

Louis Cella plead guilty to selling liquor without license, and was sentenced to pay a fine of $50 and costs, which he did, and was discharged.

John Mooney plead guilty to a similar charge and was ordered to pay a fine of $50 and costs.

Charles Cotes was placed on trial for stealing a watch valued at $22. Found guilty and sentenced to thirty days imprisonment in the county jail.

Christopher Hall was convicted of the larceny of a quantity of boards and nails. Not sentenced.

Samuel Williams, charged with the larceny of a silver watch. Not guilty.

John Oberinger, arraigned for surety of the peace. Paid the costs and entered into recognizance to keep the peace.

Grace Lee, a colored individual, plead guilty to the larceny of a considerable quantity of wearing apparel from a hotel in Chartiers township. Sentenced to thirty days in the county jail.

John Brown, on trial for stealing a horse.

A Judicial Decision.

An argument was heard before Judges Sterritt and Stowe, on Saturday last, involving the liability of parties executing bonds in legal proceedings to have the same stamped, and also (indirectly) the right of the Western Pennsylvania Railroad Company to appropriate a certain piece of ground belonging to St. Peter's Catholic Church, Allegheny. The Company proposed to take a portion of the lot on which the church stands, for depot purposes, and tendered the necessary bond in such cases. The trustees declined to accept the bond alleging that it was illegal in not having a stamp affixed to it. In bringing this point before the Court, Mr. Hamdton, the solicitor for the company, raised the collateral issue as to the power of the company, to take church property for the use of their road. The charter of the corporation provides that the company shall "take and acquire any land" which may be required for legitimate purposes, and provides that the manner of assessing damages, etc., shall be the same as under the general railroad law. The general act contains a restriction in favor of church property, and Mr. Mellon, for the trustees, raised the question whether it was not the intention of the Legislature by the act of 1864, incorporating the Western Pennsylvania Railroad, to continue that restriction. The Court held—first, that the bond did not require a stamp; and secondly, that the act of 1864, granting to the company named the right to "take and acquire any land," worked a virtual repeal of the prohibition in favor of church property under the general law.

Soldiers League.

The regular weekly meeting of the Allegheny Soldiers' League, was held on Tuesday evening at their hall, on Water street, and passed off agreeably. The membership of the League is increasing, and considerable interest is manifested in the proceedings. The vacancies in the offices of Corresponding Secretary and Trustee, were filled by the election of J. R. Oxley to the former position, and T. McBenner the latter. The reports of the Printing, Finance and Lecture Committees were presented and on motion adopted. An earnest and gratifying exhibit of the efforts to form a library, was manifested in the various reports. The prospect for establishing a library, is considered quite bright. Captain John G. Sample, was on motion, added to the Finance Committee. The Trustees were instructed to confer with His Honor, Mayor Morrison, to ascertain if the present hall could be permanently secured for a Library and Reading Room, and if so, to close the bargain immediately. After the transaction of some unimportant business, the League adjourned to meet next Tuesday evening.

Free Baths—Tenth Ward Mission School Concert.

To be held at the new Academy of Music, Liberty street, on Friday evening next, the 14th inst. It is the object of the managers of the school to procure a mission building, and establish free baths in connection with the mission. A proposition has been made by a member of the school to hold a series of entertainments, as many as shall prove profitable, he assuming all the expenses connected with holding them; that all the money received from contributions and sale of tickets may be appropriated to the object above named. This generous offer being accepted, it is confidently hoped that this first concert may be peculiarly a success. Tickets for sale at the door on the evening of the concert. Price fifty cents. Doors open at seven o'clock. Concert to commence at a quarter of eight.

Needs Attending To.

The fire plug at the corner of Smallman and Baldwin streets, is in an execrable condition, and is the last resource that could be relied on in case of fire. At the fire at Kirkpatrick, Brother & Co.'s establishment yesterday morning, the firemen had to spend over a quarter an hour in digging through the frozen ash heap surrounding the plug, in order that a sufficient clearing might be made to remove the top. Every member of the community seemed to have emptied the ashes of their households around the plug, and the heap had frozen to almost adamantine hardness. The thing needs attending to.

Accident.—On Tuesday afternoon a team of horses attached to a wagon, on which were empty hay ladders, took fright and ran rapidly down Federal street, Allegheny. Mr. Archy Glasgow, to whom the team belonged, and who was near at the time, ran out to catch and arrest the runaways. In doing so, he was knocked down, and under the horses, they and the wagon passing over him, fracturing three ribs of the right side, dislocating two from the spine, and causing other severe, if not fatal injuries. He was carefully attended to by Dr. N. W. White, into whose office he was carried, and afterwards removed to his relatives.

Whipped Her.—Mary Breen came to the office of Alderman Lynch yesterday and made oath charging Alice Mowry with assault and battery. The accused, it appears from the statement of Mary, is in the habit of indulging her innate spleen by calling every person that does not agee with her all sorts of harsh names. In one of her diurnal fits, which took place on Tuesday, she attacked Miss Breen and beat her in an outrageous manner, for doing which she has been arrested and held in $300 bail for a hearing to-day.

Bitten by a Dog.—Margaret Thomas, a little girl of three years old, was severely bitten by a large dog, on Second street, yesterday afternoon. Several boys were engaged in playing with, or teasing, the animal until they irritated him to such a degree that he leaped at one of them. The lad stepped aside, precipitating the dog on the child, knocking her down and lacerating her right shoulder with his teeth in a terrible manner. Dr. Herron dressed her injuries.

Four Charges.—L. Seymour, the proprietor of a drinking saloon on the corner of Ross and Second streets, was before Alderman Lynch yesterday to answer four charges of selling liquor on Sunday. After a partial hearing he was held in the sum of $600 to answer at court.

Death of a Journalist.—James Locke, a well-known journalist of Cincinnati, died after a brief illness, on Tuesday last.

Report of the Second Auditor.

INVESTIGATION OF THE NEW ORLEANS RIOTS

WASHINGTON, December 12.—The report of the Second Auditor shows that during the last fiscal year 91,300 accounts have been settled, including one amounting to $177,536 13. There was audited for the Pay Department, $110,299,718; Indian Affairs, $2,881,256; Ordinance Bureau, $8,802,532; Medical and Hospital Warrants, $17,337,439; Arrears of Pay, Bounty, &c., $16,189,247; Collecting, Drilling and Organizing Volunteers, $5,256,932; Pay of Bounties of Soldiers, $10,429,217. The settlements have been larger than for any previous year. FOR SALE—400 Acres of Coal Land, lying immediately upon the Ohio River, 20 miles below Gallapolis, and 185 miles above Cincinnati. On the above tract is a four foot vein of Coal, which, for general purposes, is not surpassed. It is entirely different from the Southern Ohio Coal; contains but little sulphur, forges and cokes well, and for making steam cannot be excelled. The location being about midway from Pomeroy and Hanging Rock, must make it valuable for coaling boats. There is a water front of ¾ of a mile, with a good landing at all stages of the river. An entrance has been run in the hill about 300 feet, track finished to river, together with the necessary fixtures for mining and delivering coal afloat. On said tract is first-class double Portable Circular Saw Mill together with a Portable Grist Mill, all in good running order, and plenty of the very best oak, ash and poplar timber. Would sell one-half interest if desired, to a party with experience and capital for working same.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE,
WEDNESDAY, December 12, 1866.

The New York stock quotations to-day, as reported by Robinson, McClean & Co., were as follows: Gold, 138; Silver, 128; 1881 bonds, 112⅜; Five Twenties, old, 107⅛; Five Twenties, '65, 106; Five Twenties, new, 108⅛; Ten Forties, 100⅜; Seven Thirties, 105⅛; do second and third issue, 105⅛. Michigan Southern R. R., 80¾; Cleveland & Pittsburgh, 89⅛, Pittsburgh, Fort Wayne & Chicago, 105¾; Chicago & Rock Island, 105⅛; Reading, 109; Erie, 72⅛; Western Union Telegraph Company, 48⅜; Chicago and North Western R. R., 54⅛.

—On the 15th of this month the [illegible] will be due upon the [illegible] series of seven-thir[illegible] amount of these notes outstanding, three hundred millions. They are dated June 15, 1865, payable in three years from date, with interest at the rate of seven and three tenths per annum, payable in currency. The interest upon the first series, or old seven-thirties, is due August 15 and February 15, and the notes are dated August 15, 1864. The third series of seven-thirties bear date of July 15, 1865, and their interest is payable July 15 and January 15. These last bear upon their face the option of the Government to pay interest in gold at 6 per cent. There is no immediate prospect of the treasurer's availing himself of this privilege, since coin must sink to the vicinity of 120 to make the operation profitable to the United States.

—The complaint of dullness in business seem to be rather on the increase. For many months the markets have been in a state of utter stagnation, and hopes of revival have been so long unrealized that business men have begun to despair of experiencing a shadow of the activity which usually prevails at this season of the year. There are many causes assigned for this state of things, the prominent of which are these three: First, the languor resulting from the over-exciteme nt and speculative inflation incident to our redundant currency, which has been subject to sudden and great fluctuations in value. Secondly, the depression caused by heavy and injudiciously-disturbed taxes, chiefly those of the internal revenue. Thirdly, the incertitude and apprehension resulting from the talk about speedy resumption of specie payments. This suspense checks enterprise, and by impairing credits is paralyzing and inflicting mischief on those forces by which our material wealth and national prosperity are developed. The policy of Congress regarding the currency is one of wholesome, gradual, safe contractions, and was settled by the law of the 12th of April. It is the fear lest this policy will be changed which, with the other causes we have adverted to, appears to have the most influence on business at present.

—The argument of the Comptroller of the Currency in favor of the proposed increase of currency to supply the South, is briefly this: that it is important to all sections, particularly the North, that the Southern States should be supplied with all the facilities necessary for the production of the great staples of that section, because the export of those staples would reduce the exportation of gold; that the supply now available from capitalists and individuals is not sufficient, and that the demand will be supplied by foreign capitalists, whose influence will have undue weight and give them control of a large share of the valuable products, and finally that prosperous industry is the most speedy and certain remedy for the existing evils in the Southern States. This is all very true, but, while there is still an excessive redundancy of the paper circulating medium, the idea of any measure in the direction suggested is unpalatable. Much more ought to be accomplished in the way of greenback reduction than has been before more national bank issues are thought of. The plan of equalization of currency already issued is dismissed by the Comptroller in few words as being impracticable in the first place, and if attempted, in violation possibly of the vested rights of the banking concerns. The proposition, however, to increase the issue of currency is advocated by the Comptroller because he thinks the objection to inflation could be obviated by proper care in so adjusting the increase that it shall not at any time, or in any month, exceed the amount by which legal tender notes are diminished. This would keep up expansion, at least, for the time being.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
WEDNESDAY, Dec. 12, 1866.

The produce markets present no new features worthy of special notice. There is no special improvement to note in the demand for any of the leading commodities, and as buyers seem disposed to buy very sparingly, we have but comparatively few round lot operations to report. As regards values, there are no changes worthy of special notice.

GRAIN—There seems to be no demand for Wheat, and in the absence of sales, we quote at $2,50 to $2,55 for No. 1 Spring. Barley is quiet and unchanged; we can report 1 car prime Spring at $1,06, and half a car load at $1,05. Oats dull but not quotably lower; may be quoted at 48 to 50, on track, and usual advance for small lots in store. Sale of 50 bushs Ear Corn at 73, and 1 car prime old Shelled at $1—delivered. Rye is reported steady, at previous quotations.

FLOUR—Is a little more active, though there is still plenty of room for improvement. We can report sales in round lots of 200 bbls Spring at $11,50; 75 do do (choice) at $12; 90 bbls Winter Wheat at $13, and 20 bbls "Pacific," a fancy St. Louis brand, at $15. Rye Flour is selling at $8¾ per bbl, and Buckwheat at $4½ $4¾ per cwt.

HAY—Continues to meet with a good demand, and as the supply is light, prices are well sustained. We can report sales of 16 tons prime baled, on wharf, at $30. It is but proper to remark, however, that these prices would hardly stand long under the influence of heavy arrivals.

PROVISIONS—There is next to nothing doing in Bacon or Mess Pork, while Lard is dull and unchanged at 13, for prime kettle rendered.

APPLES—In fair demand and steady with regular sales in store at $2½ to $3½ per bbl, for common to choice.

POTATOES—The demand apparently is less active, but prices are maintained; regular sales in store at $1 per bush, and $3 per bbl.

EGGS—Quiet and unchanged—the demand at present prices is light. We continue to quote at 35 to 36 for limed, and 37 to 38 for fresh packed.

BUTTER—Continues to arrive pretty freely and at present the supply is considerably in excess of the demand. Prime Roll is selling in a regular way at 28 to 30.

SEEDS—We can report a continued steady demand for Flaxseed at $3 to $3,10, while in Clover or Timothy Seeds, there is scarcely enough doing to establish quotations.

BEANS—The stock of new crop in this market is very limited, and prime small white sell readily at $2,75 per bushel.

HOMINY—Steady with regular sales at 3½.

OIL—Lard Oil has still further declined and we now quote at $1,25 to $1,28 for No. 1 and 95 for No. 2.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
WEDNESDAY, December 12, 1866.

CRUDE—The market for crude presents no new feature worthy of special notice. There is a firmer feeling, owing mainly to the prospect of navigation being restricted, if not entirely suspended, but there is no improvement in the demand, and while some holders are endeavoring to establish an advance, there are no buyers, as yet, at anything over eight and a half cents, and but few at that. We can report a sale of 800 bbls, in bulk, (43 gravity) at 8½; 200 at 14½, packages included, free on board cars, and 80 bbls same terms and price. Thus far, the improved character of the foreign news by cable, has had no other effect on the eastern markets than producing a little firmer feeling, and until there is an improvement at the seaboard, no improvement can reasonably be expected here, and it is hardly probable that there will be any material change in Europe for the better until stocks are considerably reduced, and the supply is reduced down so as not to exceed the demand.

REFINED—There is rather more inquiry and a little firmer feeling in the market for bonded oil, apparently, but, as yet, there is no improvement in prices. We can report a sale of 500 bbls for December delivery in Philadelphia, at 29; 1000, in two lots of 500 each, for January, at 30; and 500 for February, at 31. Like crude, the improved character of the foreign news, has had no other effect than that of producing a little firmer feeling, as buyers do not seem disposed to do anything at an advance. The impression seems to prevail among refiners that at last the bottom has been reached, and consequently, there is not the same disposition, apparently, to sell, that there was a few days ago, preferring rather to hold in anticipation of a stronger market and better prices. Free oil may be quoted at 46 to 47, for standard brands.

ARRIVALS—The following arrivals were reported to-day:

Fisher & Bro	1606	Aladdin Oil Co	480
Jackson & Bro	1200	W. Haldeman	2800
J. C. Young	309	Brewer & Burke	80

Total........10,800

Fort Wayne, 106; Wabash & Western, 42¼; Rock Island, 105; Northwestern preferred, 74¼; Cleveland & Pittsburgh, 92¾; Illinois Central, 18¼; New York Central, 103¼; Michigan Southern, 81¾.

RIVER NEWS.

The river fell rapidly at this point during the twenty-four hours ending last evening, at which time the marks indicated but seven feet. There was considerable floating ice in the Allegheny river, but as the weather has moderated somewhat, no serious apprehension is entertained in regard to navigation being obstructed from this cause for a few weeks yet. For several years past the Ohio has been navigable until about the first of January, though it is no unusual thing for the Monongahela and Allegheny rivers to be closed up before that time.

There has not been a single arrival from below since our last report. The Robt. Moore, from Portsmouth, and the New York, from Cincinnati, are due here to-day.

The Grey Eagle cleared for Parkersburg on time, and the Bayard, Capt. Moore, is the regular packet for that point to-day, leaving promptly at noon, and passengers and shippers should bear this fact in mind.

The Argosy left for Cincinnati yesterday with a fair freight list and a large number of passengers. The Maggie Hays, Capt. Hendrickson, is the regular Saturday packet for that point.

The Ezra Porter, from St. Louis, is about due and may possibly be found in port this morning.

The Lorena, Capt. J. B. Conway, with Capt. Chas. Wilkins in the office, will positively leave for St. Louis to-day. The Arabian is next in turn for St. Louis after the Lorena.

The Ida Rees, Capt. Joe Brown, is filling up steadily for Cincinnati and Louisville, and will soon be ready to take her departure.

The Kate Robinson, Capt. Robinson, and the Leonidas, Capt. A. R. McGowan, are both announced for New Orleans.

The Allegheny river packets have all, with one exception, been laid up, and navigation on that stream for the present at least, may be considered at an end. A telegram from Oil City yesterday forenoon reported the weather very cold, river falling rapidly, and full of floating ice. It is probable that a number of oil boats will be frozen up at different points, and for them to freeze up is almost certain destruction.

There was rather more activity manifested at the levee yesterday, although there is still plenty of room for improvement. The Argosy got considerable freight, including some "red-leads," and the Kate Robinson received quite a large number of plows, destined for New Orleans. The cold weather, and indications of an early freeze up, has a tendency to stir up shippers.

The R. C. Gray left St. Louis for Pittsburgh on Saturday; the Emma No. 2 left on Sunday, and the Glendale was advertised to follow on Monday. The steamer Benton was sold at St. Louis on Saturday last to Capt. Joseph Stettinius, President of the Phœnix Insurance Co., for $7,000.

The Importer and Maggie Hays arrived at Cincinnati on Monday, and the latter boat was advertised to leave again for Pittsburgh on Tuesday. The Glasgow and Pine Bluff, en route from St. Louis to Pittsburgh, were at Evansville on Monday, as was also the Camelia, en route for Nashville. The Minnie and Friendship passed Louisville on Monday, both bound for Pittsburgh. We clip the following from the Cincinnati *Commercial* of Tuesday:

It is our painful duty to record the death of James Locke, Esq., river editor of the Cincinnati *Gazette*. Mr. Locke was out on Monday last, and complained of being unwell. He was confined to his room on Tuesday, with cholera, which changed into typhoid fever, terminating in his death, on Monday night at 12 o'clock. He leaves an interesting family to mourn his loss. The deceased enjoyed the confidence and respect of all who knew him, either professionally or socially.

JEFFERSONVILLE, IND., December 9—7 P. M.—EDS COM.—There is nine feet in the pass over the falls, and seven and a half feet over the rocks, for up or down boats. The river is on a stand this evening. The Robert Burns and Armadillo passed down. The river has been very rough for the past two days, and a coalboat containing 20,000 bushels of coal, owned by Chas. Miller, was swamped at the foot of the falls. One hundred and forty-nine boats and barges of coal passed over the falls during the past three days, making near two million bushels. There is a number to go over yet.

The Louisville *Courier* of Monday, has the following:

The towboats have not yet made up their tows of coal for the South, though we think the greater number will be off by this evening. The Grand Lake, the new towboat, was busy yesterday towing her barges over the falls, and had made two trips. The Hornet and Baltic has also arrived and were preparing to start South. A barge with about 20,000 bushels coal, belonging to C. Miller & Co., in tow of the Dar, twas sunk on the falls saturday evening. The barge was dashed to pieces and the whole was a total loss. We also learn that the towboat Eagle lost one of her boats. It swamped, filled with water, and was run to the shore below New Albany. The towboat Coal Hill had to come too at New Albany to patch a burnt boiler. We fear the storm that prevailed along the river Saturday has proved disastrous to the coal fleet. The storm was very severe at Cincinnati, where it unroofed several houses. It blew pretty hard here, though doing no damage.

The new low-pressure steamer Richmond, on the marine ways at Madison, had a slight shock of the high wind, but escaped all damage. A portion of the after part of the hurricane roof, in an unfinished condition, was slightly loosened from the stanchions, which will give the builders an hour or two's trouble to readjust. It was a portion of the roof projecting over the after guard. The Richmond is now wholly roofed in and the texas built, and she is all ready to float off the ways on the first high tide.

PORT—Deep red color, fine flavor, and is many respects similar to the old wines of Lisbon.

GRAPE BRANDY—The pure distillation of our wines.

WINE BITTERS—A very agreeable tonic and a sure remedy for the diarrhea.

This is one of the most valuable combinations of a useful and an agreeable beverage that has ever been offered to the public. Millions of bottles were sold throughout the North during the last four years, and wherever introduced it has proved a welcome addition to the invalid table, the family circle, and the bachelor's sideboard.

Ladies who have lost strength and appetite, and suffer from nausea, vomiting and vertigo; gentlemen who "don't feel very well" just before breakfast or dinner whose stomachs are out of order and whose systems are generally deranged; mothers weaning children and suffering from general debility; children of sickly nature and sour, dyspeptic constitutions; travelers who have occasion to change their water; and all who live in malarious districts and are subject to miasmatic influences, will find it one of the most valuable invigorators that can be taken.

It was used very extensively in 1861, with such general satisfaction that in offering it to the public now we deem it unnecessary to publish any of the many certificates that we have received, testifying in the very strongest terms in its favor. All that we can say is to guarantee that we will pledge ourselves to furnish an article PURE AND UNADULTERATED.

It has been given to little children suffering from weakness and weak lungs with most happy effect. One little girl in particular, with pains in her head, loss of appetite and daily wasting consumption, on whom all medical skill has been exhausted, has been entirely restored. She began with but a teaspoonful a day. Her appetite and strength rapidly increased and she is now well.
